

Technology. Strategy. *Enduring value.*

A CLEAR DIRECTION FOR WHAT COMES NEXT

TECHNOLOGY & BUSINESS SERVICES

Asteriva is a Cyprus-based technology and business-services company. We connect software and AI development, commercial strategy and project delivery to help businesses turn a defined objective into practical work.

Connected capabilities. One considered direction.

01 BUILD & ENABLE

Software & AI Development

Custom platforms, digital products and AI applications shaped around the business need. From requirements and integrations to testing and handover.

02 POSITION & CONNECT

Business & Commercial Strategy

Opportunity assessment, positioning and business-development planning. A focused approach to partnerships and international expansion.

03 COORDINATE & DELIVER

Project & Operational Support

Roadmaps, responsibilities and milestones that connect planning with execution. Support for stakeholder coordination, process review and handover.

Built around your objective. Scoped around the work.

A clear scope. *A purposeful next step.*

Start with a focused assignment or a broader initiative. We agree the deliverables, responsibilities, milestones and commercial terms around the work your business needs.

FROM UNDERSTANDING TO EXECUTION

01

Understand.

Review the objective, users, existing systems and commercial priorities. Identify constraints and the decisions ahead.

**A shared brief
and clear priorities**

02

Shape.

Translate the requirement into a workable scope. Set responsibilities, dependencies and a practical sequence of delivery.

**An agreed scope
and delivery roadmap**

03

Advance.

Coordinate workstreams, review milestones and communicate decisions. Manage agreed changes and prepare the handover.

**Progress reviews
and handover materials**

WAYS TO ENGAGE

The right working *relationship.*

A defined remit.
Clear responsibilities.
A suitable review cadence.

Advisory & planning

Focused reviews, requirements, opportunity assessments and roadmaps.

Development & implementation

Software development, AI applications and integrations against agreed milestones.

Ongoing project support

Coordination of product, operational or commercial workstreams under an agreed remit.

What comes next starts with a conversation.

Share your objective, current stage and the support you need.
